1. The attached proposed changes were discussed by the undersigned with [redacted] who has not, however, yet seen the proposed text. The proposed changes are three:

- (a) Omission of all reference to "copies" in paragraphs 1(a), 2(c) and 2(e).
- (b) Setting up the second sentence of paragraph 2(e), re "Extracts", as a separate paragraph, to make clear its application to Top Secret and Controlled Distribution (as well as to Normal Distribution) Cables.
- (c) Designation in paragraph 2(e)(2) of current cable releasing officers as proper authorities to release archival cables.

2. We also recommend AB distribution, which was followed for all other issuances in the 90-- series (except for one sensitive notice, distributed A, 4B).

Paragraph 1(a), change second sentence to read:

"...It provides a reference service, for personnel wishing to read, or to make extracts of, incoming and outgoing cables, provided such cables are more than six months old."

Paragraph 2(c), change first and second sentences to read:

"The request will be authenticated by the appropriate Deputy Director or Operating Official", or his authorized representative, in order to identify the requester and to indicate that he is properly authorized to read, or to make an extract of, the cable in question. If it is desired that no extract of the cable be made, this will be stated by the authenticating official...."

Paragraph 2(e), change to read:

"...(1) Normal Distribution Cables

The requester will be permitted, on the authority of the original request, to review such cables in Signal Center Archives.

(2) Top Secret and Controlled Distribution Cables

(a) (as in draft)

(b) (change third sentence to read:) "...Such addressee, or subordinates to whom he has delegated the authority to release outgoing cables, may then dispose of the request in any one of the following ways and the Signal Center will be guided accordingly: ..."

Paragraph 3 "EXTRACTS.

The Signal Center has no facilities for preparing copies, but the requester may make an extract if desired, provided the authorizing official has not expressly forbidden the making of extracts and security regulations permit such action."
